Sizes Available	60 x 90cm. (2' x 3') 90 x 120cm (4' x 3') 90 x 150cm (5' x 3')
Cleaning	Machine Washable 40°

Wacmat®

ACCESSORIES

LAUNDRY BAG

It has recently been brought to our attention that problems can be experienced with the Wacmat® and certain laundry appliances. Specifically, when the Wacmat® is washed or dried in a machine that possesses a larger than average gap around the drum, it is possible for a corner of the Wacmat® to get trapped. This can lead to damage to the edges of the Wacmat® and a subsequent reduction in its appearance and 'lay-flat' properties.

To counter this problem we have now introduced a mesh laundry bag for use with the Wacmat®. At a cost of £12.95, the laundry bag will ensure that the Wacmat® is completely enclosed whilst not unduly affecting the washing or drying processes.

For further information on the new Wacmat® laundry bag, or to discuss any laundry concerns, please contact us on Freephone 0800 0743749.

All prices exclude VAT.

“STAY-PUT” SHEET

The Wacmat® is a multifunctional mat, which can be used in many different areas within a care home.

When being used in a position that experiences a lot of traffic, such as an entrance, it may, as with any mat, be liable to “creep” along the carpet. The Stay-Put sheet is designed to eliminate this problem.

The Stay-Put sheet is backed with a double sided adhesive material and is placed tacky side down (peel off yellow polythene backing) beneath the Wacmat®. Even with the Stay-Put sheet the Wacmat® still lays flat and remains easy to remove for laundering. Additionally, the Stay-Put sheet can be lifted without leaving a mark, and will maintain its stickiness for a number of changes of position.

Priced at £9.95 for use with a small Wacmat® and £12.95 for the medium and large, the Stay-Put sheet adds to the Wacmat®'s already excellent qualities and gives additional peace of mind to those concerned over potential problems when using mats in care homes.

Wacmat[®] Washing Instructions

The WACMAT[®] is constructed from 100% cotton, with backing and edges composed of a rubber/vinyl mixture.

Some laundry equipment can scuff or damage the edges of the WACMAT[®]. Use of our net laundry bag will minimise this risk.

The high absorbency of the cotton pile will be reduced by the use of Fabric Conditioners, impairing the performance of your WACMAT[®].

Colours will be affected by cleaning chemicals containing bleaching agents and also by some medications.

Overheating in a Tumble Dryer will weaken the backing material, resulting in distortion, scuffs and tears to the edges of the WACMAT[®].

- 1/. MACHINE WASH SEPARATELY AT 40 deg. C.
- 2/. Place loosely in the Drum with Pile to the Outside
DO NOT FOLD OR ROLL
- 3/. NO BLEACH
- 4/. NO FABRIC CONDITIONER
- 5/. TUMBLE DRY ON COOL SETTING – DO NOT OVERDRY
- 6/. Drying over a radiator may extend the life of your WACMAT[®].
- 7/. Domestic washing machines are not recommended for washing mats larger than 60 x 90cm.
- 8/. Use of an Odour Neutraliser may be considered if required.
Please ask for details - Tel: Freephone 0800 0743749.
