M53370

M53540

Features and Benefits

- Height adjustable for different users
- Choice of standard (M53370) or with padded seat (M53540)
- Folds upwards against the wall when not in use
- Supplied part-assembled - only needs fixing to a suitable wall
- Metal and plastic parts for durability and ease of cleaning

Wall Mounted Folding Shower Chair

Product Description

A simple yet sturdy folding chair to help people unable to stand while showering. Because it folds, it becomes unobtrusive when not in use, so others may use the shower as normal.

We supply the chair already part-assembled. Simply set the leg height for the user using the E-clips, then fix the backplate to a suitable wall using appropriate fixings (not supplied). The seat folds upwards when not in use.

Easy-clean plastic and metal parts provide excellent hygiene. The seat has drain holes to provide safety and comfort for the user. The padded seat option (M53540) is similar except for a thicker, padded seat and back.

Note: For showers and wet-rooms only. Not recommended for baths due to the space needed for the backplate. Not for fibreglass or acrylic shower enclosures where the walls have low stiffness or strength. Due to the wide array of wall surfaces and fixings available, we do not supply fixings.

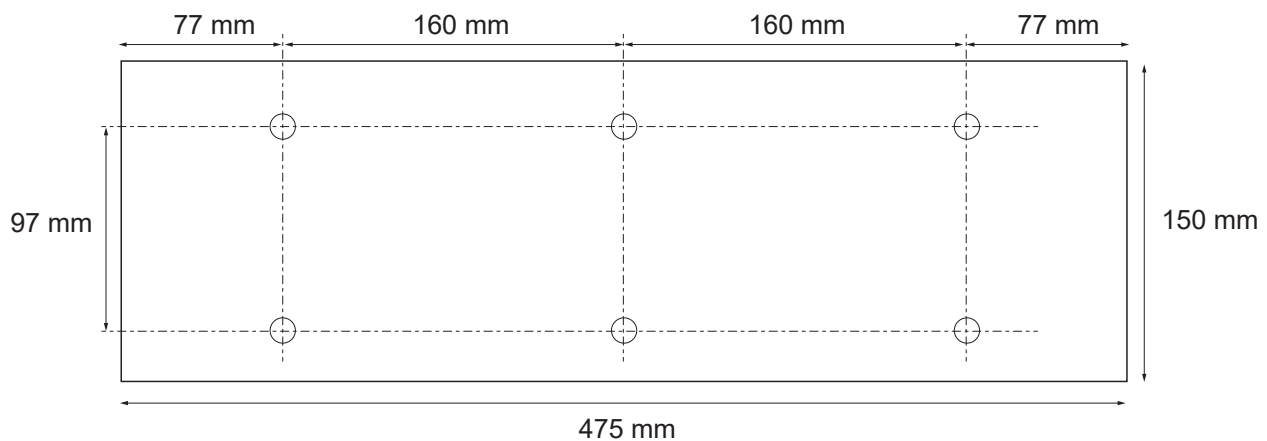

Product Technical Details

- Metal frame. Plastic seat with drain holes.
- Maximum User Weight: 160 kg (25 st).
- Adjustable height.
- Product Weights: M53370 6.3 kg, M53540 5.75 kg.
