

GUARDIAN III

The Next Generation Of Care In An Emergency

Keeping you active, independent and secure at ALL times. **GUARDIAN III** provides you and your loved ones with the **FREEDOM** and **PEACE OF MIND** knowing that you are protected wherever you are, wherever you want to go.

KEY FEATURES

Fall Detection

If a fall has been detected the CPR Guardian III will raise an alert via text message and start automatically ringing loved ones.

Emergency Assist Button

In the event of an emergency, the watch will be able to alert contacts when the SOS button is held down for 3 seconds. It also updates the wearer's location through our monitoring app.

Smart Location Tracking

Smart Location Tracking In the case of an emergency use the CPR Guardian III Monitoring APP to track the wearer's outdoor location with GPS technology or indoor with WiFi access point tracking

Two Way Calling

Keeping in touch has never been easier with the ability to phone loved ones, send voice messages and a SOS button In case assistance is required.

Heart Rate Monitor

The Guardian III constantly monitors the wearer's heart rate and alerts the administrator if the heart rate drops below 30 beats per minute.

Geo Zones

Set up safety zones and be notified when the wearer leaves or enters an area of your choice, keeping you informed and reassured at all times.

Body and Environment Temperature Monitor

Monitors the wearer's body temperature and environment temperature and sends this information directly to the CPR Monitoring APP.

Strongest Network Signal Covering the UK & EU

Guardian arrives pre-installed with a CPR Chameleon SIM which provides maximum mobile coverage at all times by intelligently switching between Vodafone, o2 and EE mobile networks based on the best available signal.

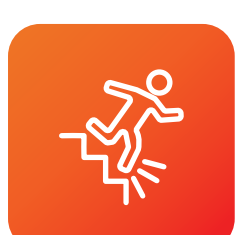

CPR MONITORING APP

The CPR Monitoring App is available in the Apple® App and Google Play store.
