S13880

S13892

S13909

### Features and Benefits

- Contemporary design with beech laminate tabletop to suit most interior decor
- A choice of three different options to suit the needs of the user - including a tilting tabletop and a unique c-shape lower frame design for use with wheelchairs
- Single-column design with adjustable height to suit different size chairs and beds
- 'Easylift' spring-assisted self-locking height adjustment for ease of use
- Locking castors for both mobility and stability, with optional mushroom feet included for use with divan beds
- Painted metal and laminate parts for durability and ease of cleaning

## Easylift Home Overbed and Over Chair Tables

### Product Description

Three options of table, each of contemporary design, used for working, eating or reading. This design uses an adjustable height single column to allow the table to fit over most beds and chairs. Each table top has a raised lip to help contain minor spills. A simple spring-assisted 'Easy-lift' mechanism and hand wheel allows the user to adjust the height of the tables to suit different users and different size beds and chairs. We include the simple tools needed to assemble these products.

- Option S13880 has a single section tabletop and a fork-shape lower frame for bed use only.
- Option S13892 has a single section tabletop and a unique c-shape lower frame design that works for chairs, wheelchairs and beds.
- Option S13909 has a fork-shape lower frame for bed use only but has two table sections. The larger section has an added non-slip lip and a simple ratchet mechanism that tilts the section to hold books, magazines or similar reading material. This section may be reversed to work on either side of the bed. The other side table section lifts on hinges to reveal a small under-desk storage tray, suitable for glasses, a tablet or pens.

S13892

S13909

The tables have four castors for mobility when needed, and each castor has a lockable brake for stability when the table is in use. We also include optional mushroom feet in place of the castors to allow the tables to work with divan beds.
