Maximum User Weight

Please ensure these instructions are fully read and understood before use. Retain in a safe place for future reference.

8+/200mm seat

Intended Use

6+/150mm seat

The NuvoTM Slatted Bath Seat is designed to provide a safe seat for use when bathing. It can be used on its own or in conjunction with NuvoTM Bath Boards to assist the user in and out of the bath.

Prior to fitting, please ensure:

- The user does not exceed the 190kg (30 stones) weight limit
- The bath surface is clean, dry and free from oil or soap residue
- The correct size of bath seat has been selected for the client
- Do not use in a highly sculptured or unusual shaped bath, as the seat may not fit properly.
- Do not use in a bath with a textured base
- Do not stand on the seat
- Always ensure that the sucker feet are secure before bathing commences

Installation Instructions

1) Screw leg inserts onto base in a clockwise direction. If an 8+seat is required, screw spacers onto base first, as shown . see fig. 1

If a 12" seat is required screw in spacers place base frame over spacers, screw in leg inserts then pull base frame firmly down to locate over each rounded foot

2) Place the Bath Seat in the desired position on the flat base of the bath and push down firmly to ensure that the sucker feet have adhered to the bath surface.

3.) Ensure that the slats are positioned parallel to the width of the bath and that all sucker feet are secure.

Removing

Before lifting, release the tabs on the sucker feet.

Care of the Nuvo[™] Bath Seat

The Nuvo[™] Bath Seat is made from corrosion free parts. It can be cleaned with non-abrasive cream cleaners or up to 80 C in industrial cleaners. Please complete a visual inspection of the seat every six months, checking for wear and tear.

Safe Use of the Nuvo[™] Bath Seat

6"(150mm) / 8"(200mm) versions

It is recommended that the 6+and 8+Nuvo[™] Bath Seats are used in conjunction with a Nuvo[™] Bath Board, for optimum safety. The recommended safe method of using a Bath Board and Seat together is as follows:

- 1. Start with your feet flat on the floor and your back to the bath
- 2. Step backwards until you can feel the edge of the bath against the back of your legs
- 3. Sit on the board and move your bottom back towards the middle of the bath board
- 4. Lift your legs one at a time over the bath edge, into the bath
- Move your bottom across the board until you are seated in a central position. You may need to use your arms to ±iftqyour bottom and move sideways in small stages

You are now ready to use your arms to lower yourself down on to the Nuvo[™] Bath Seat Reverse the procedure for getting out again the top of the bath seat is level with the top of the bath. In other cases, the user should step into the bath (where appropriate) and sit down onto the seat, possibly using a grab rail for stability.

10"(250mm) / 12" (300mm) versions

- It is recommended that the safest way to use the 10/12+Nuvo[™] Bath Seat is to use the same method as for the Nuvo[™] Bath Board above (stages 1-4).
- 2. Reverse the procedure for getting out again.

Please note, this method is only recommended in situations where the top of the bath seat is level with the top of the bath. In other cases, the user should step into the bath (where appropriate) and sit down onto the seat, possibly using a grab rail.

Still Having Difficulty?

Here are some ideas that may help you:

Problem	Suggestion
Difficulty swinging legs	Try a manual leg-lifter
over bath edge	(NRS Code L33194)
Difficulty getting into	Try a grab rail, mounted
position on the board or	on the wall above the
seat	bath. NRS have many
	different sizes and styles.
	Call Customer Services
	for details.
Difficulty reaching down	NRS have a range of
to wash lower legs and	long-handled personal
feet or up to wash hair or	grooming aids to assist
scalp	with this. Call Customer
	Services for details.
