

Usage

- **Be sure to read all information and directions before use.**
- The *Quick Rail* is designed to assist your natural motion, as when stepping into or out of a shower.
- **The *Quick Rail* is not designed to hold or support your full body weight.**
- Proper placement of the *Quick Rail* is according to individual use.
- Please be aware of your own ability and limitations in strength and range of motion.
- The *Quick Rail* can be used where drilling to mount bars is not possible; for example in fiberglass bath enclosures, or glass shower panels.
- Do not attach to moving surfaces.
- The *Quick Rail* is suitable for rental situations, or to carry with you for travel.

Attaching the *Quick Rail*

- *Quick Rail* is designed for use only on smooth and non-porous surfaces; tile, glass, porcelain or fiberglass. Not for use on wall board, wood, painted or papered surfaces.
- Check the condition of the wall or tub surface before positioning the *Quick Rail*. Support surface should be free of defects and be in sound condition.
- Clean the surface thoroughly with alcohol and allow it to dry before attaching the *Quick Rail*.
- Never mount in a position when the *Quick Rail* will be in direct sunlight.
- Check the condition of the suction cups. Do not use if damaged, cracked or split.
- With both blue levers raised, place the suction cups so that they lie firmly and completely on a smooth surface. Not for use on mosaic style tiles.

- Do not place over grout lines as illustrated at left.
- Press on one lever on one end, then the other. You should feel resistance as it tightens.
- Check attachment before each use.
- To remove, lift each of the 2 levers. If the suction remains, lift one edge with a finger. Do not use a sharp edge, as damage to the suction cup is possible.
- Clean *Quick Rail* regularly with non-abrasive alcohol based bathroom cleaner.

Liability warning

Quick Rail is designed for use only on smooth and non-porous surfaces. Always check attachment before use. Before installing, check the stability of the wall. All tiles must be firmly attached to a solid backwall. One piece molded inserts must be firmly adhered to the wall. *Quick Rail* is sold under the condition that the user assumes all risk of injury due to use.
