

USER INSTRUCTIONS

ADJUSTABLE BATH-STEP RANGE

S09347	1 x Nuvo Bath Step, 2 x NRS Bath Steps & Pillars
S20677	1 x Nuvo Bath Step & Pillars

⚠ General Safety Warning ⚠

Please make sure that you read and follow these instructions carefully. Keep these instructions in a safe place for future reference.

Maximum User Weight

1. INTENDED USE

To assist users transferring into and out of the bath by reducing the step-over height. It can also provide assistance when using the toilet or sink in a bathroom environment.

2. SAFETY

WARNING: The maximum user weight must not be more than 317 kg (50 st).

WARNING: The maximum step height is 175 mm (7") using 6 step sections (2 packs).

DO NOT: Stack more than 6 step sections together.

ALWAYS: Make sure the bottom section of the step has 4 support pillars inserted into the base.

ALWAYS: Make sure the overmoulded section is placed on the top.

3. UNPACKING

Remove the packaging and check all parts carefully. Contact your supplier immediately if parts are missing or damaged and do not try and assemble.

3.1 Contents:

1. Overmould Step 50 mm (2") x 1
2. Step 50 mm (2") x 2
3. Support Pillar x 4

4. ASSEMBLY/INSTALLATION

4.1 Single Step - 50 mm (2") Step Height:

Use the single overmoulded step section.

1. Turn the overmoulded step section upside down and lay flat.

2. Push the four support pillars into position (see Figure 1).

Figure 1: Insert Support Pillars

3. Turn the step over to stand on the pillars and place in the desired location.

4.2 Two Steps - 75 mm (3") Step Height:

1. Push the four support pillars into position on one of the non-overmoulded step sections (see Figure 1).
2. Place the overmoulded step section on top of the first.

3. Push down firmly to secure.

4.3 Three Steps - 100 mm (4") Step Height:

1. Place a third step section inbetween the bottom section and the overmoulded top section.
2. Push down firmly to secure.

4.4 For a Step Sequence:

This set-up provides a series of 2 steps, the first at 50 mm (2"), the second at 75 mm (3").

Note: An additional overmoulded step section and support pillars are required to achieve this set up. See Section 7.0 for details.

1. Turn one overmoulded section and one non-overmoulded sections upside down and lay flat. These will become the base steps.
2. Push the 8 x support pillars into position, four on each step section (see Figure 1).
3. Turn the base steps over to stand on the pillars.

4. Link the two sections together by overlapping the cut out section on one with the protruding lip on the other.
5. Push down firmly to secure.
6. Place the second overmoulded step section on top of one of the non-overmoulded base section.
7. Push down firmly to secure.

Note: To achieve a similar set up with greater height or more steps in the sequence, additional packs of steps and support pillars must be purchased. See Section 7.0 for details.

Note: The safe maximum step height is 175 mm (7"). This uses 2 packs, 6 step sections. Do not stack more than 6 sections together.

5. MAINTENANCE

Check that all support pillars are inserted correctly and any additional sections are securely fitted.

Inspect the product regularly for signs of wear or damage. Any suspected faults or damage should immediately be reported to the supplier and the product taken out of use.

6. CLEANING INSTRUCTIONS

Clean regularly using a general purpose, neutral detergent and warm water.

Please check the suitability of the cleaning products before use. Do not use abrasive cleaners or cloths as these could permanently damage the surface and invalidate any warranty.

To disinfect, wipe with a dilute bleach solution and rinse thoroughly with fresh water.

This product can be autoclaved on cycles up to 80°C. Allow the product to dry fully prior to use/storage.
