Features and Benefits

- Two colour options with adjustable height to suit different users
- Backrest and comfortable seat to allow use as a chair
- Lightweight with simple folding mechanism for easy storage and transport
- Large diameter wheels with high-grip tyres and lockable brakes for safety
- Newly updated faux leather storage bag for a premium feel

Compact Easy Plus Rollator

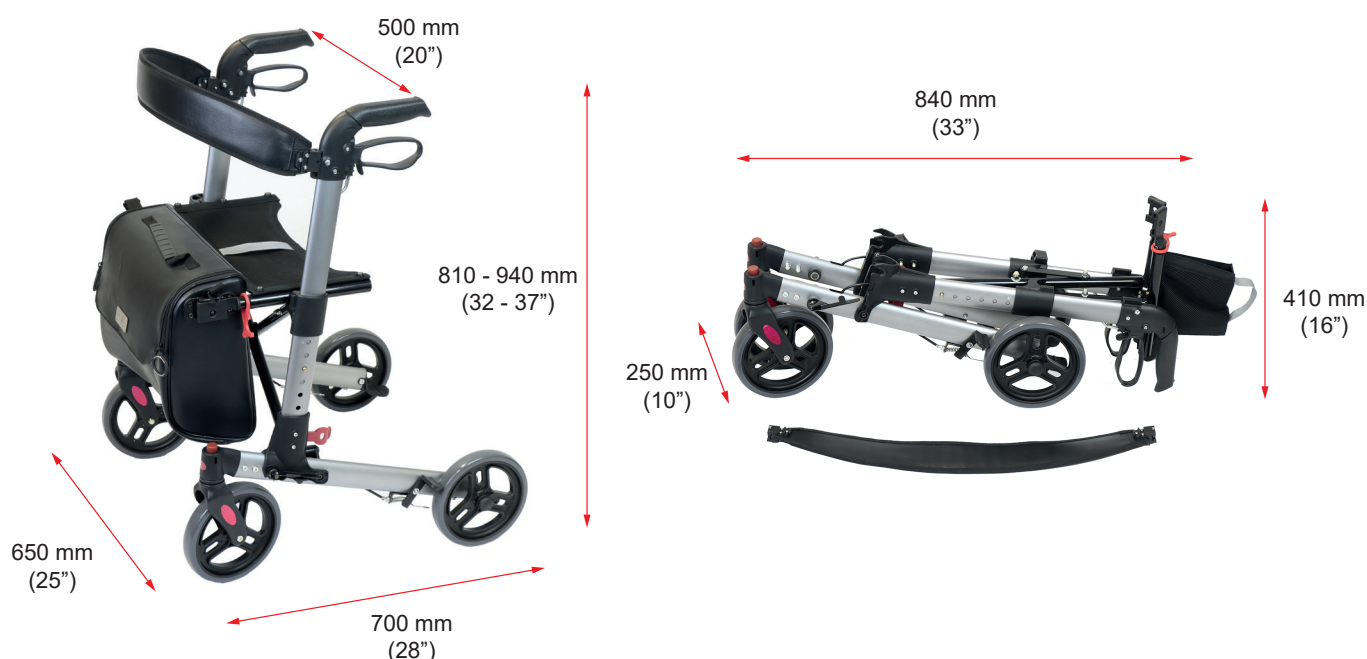

Product Description

Lightweight rollators in a choice of two colours to help users who have difficulty or lack confidence when walking. Users can easily adjust the handle height to suit their needs. Brake levers on each handle control the brakes on the two rear wheels. They also include a double locking mechanism (width and height) for added safety. The large diameter high-grip wheels allow the rollator to roll along most surfaces while keeping control. The simple folding mechanism allows the user to easily collapse and store the rollator, useful when loading into a car boot or storage cupboard.

The rollators include a removable storage bag to hold smaller items, keeping hands free for safety.
