

the Hold It™

the Hold It™

Easy grip handles to adjust angle of tray

Reading tray rotates by pushing a button to allow reading at an angle

Cover holders secure almost any size of book and slide out when needed for typing or writing/ drawing

Functional, expandable pegs keep book and pages in place and slide out when needed for typing or writing/ drawing

Easy grip handles to increase height

Introducing the revolutionary new floor standing **bookholder**, **computer copyholder** and **drawing/writing** stand in one!

Enjoy either hands-free reading in the sofa or bed to relieve aching necks and backs or hands, or draw/write or use your laptop in the ergonomically approved position either sitting down, standing up, or lying down.

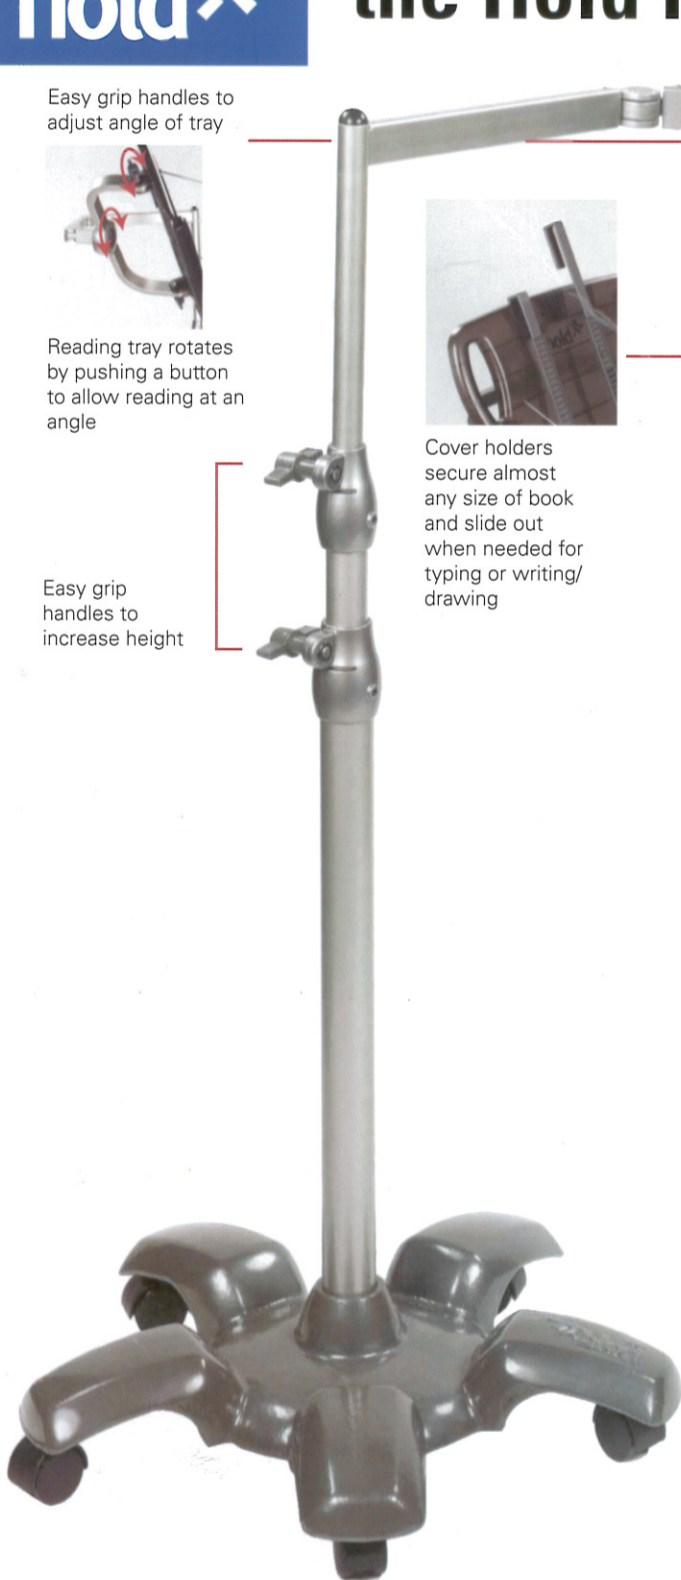

Professionally designed and made from high quality light weight aluminium, metal and other durable plastics, the Hold It™ will accommodate almost any size of book, laptop or writing material. Its attractive design will blend in with all decors.

It can be angled almost infinitely so you can read directly above you, or sideways.

No other floor standing unit around can boast all the design features which the Hold It™ has.
