Adjustable Bath Step & Support Pillars

⚠ General Safety Warning ⚠

Please make sure that you read and follow these instructions carefully. Keep these instructions in a safe place for future reference.

1. INTENDED USE

The NUVO Adjustable Bath-Step has been designed to assist users transferring into and out of the bath by reducing the step-over height. It can also provide assistance when using the toilet or sink in a bathroom environment.

2. SAFETY

WARNING: The maximum user weight must not be more than 317Kg (50st).

WARNING: The maximum step height is 175mm (7") using 6 step sections (2 packs).

DO NOT: Stack more than 6 step sections together.

ALWAYS: Make sure the bottom section of the step has 4 support pillars inserted into the base.

3. UNPACKING

Remove the packaging and check all parts carefully. Contact your supplier immediately if parts are missing or damaged and do not try and assemble.

3.1 Contents:

1. Step 50mm (2") x 3
2. Support Pillar x 4

4. ASSEMBLY/INSTALLATION

4.1 Single Step - 50mm (2") Step Height:

1. Turn one step section upside down and lay flat.
2. Push the four support pillars into position (see Figure 1).

Maximum User Weight

Figure 1: Insert Support Pillars

3. Turn the step over to stand on the pillars and place in the desired location.

4.2 Two Steps - 75mm (3") Step Height:

1. Turn one step section upside down and lay flat.
2. Push the four support pillars into position (see Figure 1).
3. Place an additional step section on top of the first.

4. Push down firmly to secure.

4.3 Three Steps - 100mm (4") Step Height:

1. Place an additional step section on top of the top step section.
2. Push down firmly to secure.

4.4 For a Step Sequence:

This set-up provides a series of 2 steps, the first at 50mm (2"), the second at 75mm (3").

Note: An additional set of support pillars are required to achieve this set up. See Section 7.0 for details.

1. Turn two step sections upside down and lay flat. These will become the base steps.
2. Push the 8 x support pillars into position, four on each step section (see Figure 1).
3. Turn the base steps over to stand on the pillars.

4. Link the two sections together by overlapping the cut out section on one with the protruding lip on the other.
5. Push down firmly to secure.
6. Place the additional step section on top of the base section.
7. Push down firmly to secure.

Note: To achieve a similar set up with greater height or more steps in the sequence, additional packs of steps and support pillars must be purchased.

Note: The safe maximum step height is 175mm (7"). This uses 2 packs, 6 step sections. Do not stack more than 6 sections together.

5. MAINTENANCE

Check that all support pillars are inserted correctly and any additional sections are securely fitted.

Inspect the product regularly for signs of wear or damage. Any suspected faults or damage should immediately be reported to the supplier and the product taken out of use.

6. CLEANING INSTRUCTIONS.

Clean regularly using a general purpose, neutral detergent and warm water.

Please check the suitability of the cleaning products before use. Do not use abrasive cleaners or cloths as these could permanently damage the surface and invalidate any warranty.

To disinfect, wipe with a dilute bleach solution and rinse thoroughly with fresh water.

This product can be autoclaved on cycles up to 80°C. Allow the product to dry fully prior to use/storage.

7. ACCESSORIES & SPARE PARTS

M24345: Support Pillars x 4
