

# doorline-neatslope™

## Instructions for use

**Product codes:** DNS6, DNS6A, DNS10, DNS10A, DNS16, DNS16A

### Before use

- Remove and retain all packaging
- Ensure the ramp has not been damaged in transit or storage.
- Carefully read the instructions and warning texts before using ramps. Keep instructions for reference.
- The capacity of the ramp is 300kg (661lbs) assuming the ramp rests on the threshold.

### To Deploy – Ramps **without** adhesive strip

- Clean and dry all ramp contact surfaces
- Check the fit of the ramp by placing it flush against the threshold
- Trim the ramp if necessary, following the below “cutting to shape” instructions

### To Deploy – Ramps **with** adhesive strip

- Clean and dry all ramp contact surfaces
- Check the fit of the ramp by placing it flush against the threshold
- Remove the ramp
- If cutting/modifying is required, do this before the next step (see cutting instructions below)
- Remove the tape on the underside of the ramp.
- Place the ramp on the clean surface
- Apply pressure to the ramp

### Cutting To Shape - The ramps can be made smaller by following these steps

- Measure the threshold for height. (Remember to check the left, centre and right side of the door).
- Determine the cut position to achieve the required height. The guidelines on the top of the ramp can help ensure straight cuts. Use any hand saw or knife – follow all relevant health & safety procedures
- Place ramp in desired location and scribe for any vertical mouldings/door jams or uneven heights. Trim or notch ramp to fit (as described above) and sit ramp against threshold to check.

### Maintenance

- If the ramps become damaged or slippery in any way, they should not be used (contact supplier/manufacture).
- The ramps may be cleaned with normal cleaning products and left to dry before use.
- Maximum recommended cleaning temperature 50°C, please enquire for further details on use with industrial cleaning machines

### Recycling

- For disposal of this products, please liaise with a plastics recycling contractor.
