For technical assistance with your installation or any other technical help please call: **0845 402 9924**

### FITTING GUIDELINES

The Carerscreen® is a portable / removable screen option and does not require to be fixed in position like a traditional set of shower doors.

Carerscreen® will stand unassisted in the shower area to deflect water back towards the showers waste position.

The Carerscreen® panel sections can be manually positioned to best suit the user and / or carer, as illustrated right.
