## Keyguard Digital XL Key Safe

- Anti-Manipulation keypad
- 'Secured by Design' and 'Sold Secure' Accreditation
- Robust zinc alloy
- Anti-drill plate
- Over 4000 code combinations
- Holds up to 6 keys
- Supplied with Thunder bolts
- Designed for outdoor use
- Weather resistant cover

**Description** The Keyguard Digital XL police approved key safe has achieved both the Secured by Design and SoldSecure Bronze accreditations. The 12 button design provides a high number of potential code combinations and there is a lockable cover over the code selection switches that prevents the unauthorised changing of the safe combination. Its solid steel construction, and anti drill plate, makes it secure against physical, or drill, attack when mounted securely on a brick wall. It includes a tough weatherproof cover and can store both Yale and Chubb type keys.

### Dimensions

**Size:** Internal:

70 x 50 x 20 (2<sup>3</sup>/<sub>4</sub> x 2 x 3<sup>3</sup>/<sub>4</sub>" )

**External:**

160 x 95 x 56 (6<sup>1</sup>/<sub>4</sub> x 3<sup>3</sup>/<sub>4</sub> x 2<sup>1</sup>/<sub>4</sub>" )

**Weight:** 2kg (4<sup>1</sup>/<sub>2</sub> lb)
