	Medium 865 mm/34"	S08859
	Long 915 mm/36"	S08860

### Features and Benefits

- Registered design with trademarked name - unique to NRS Healthcare
- Two different products to suit user's needs
- Three lengths to suit users of different heights
- Grab & Go walking stick has a built-in grabbing mechanism to pick up small items - no need to bend down
- Replaceable ferrules to extend the life cycle and reduce waste
- Contemporary lightweight but durable two-tone colour design with comfortable, ergonomic Hand Grip

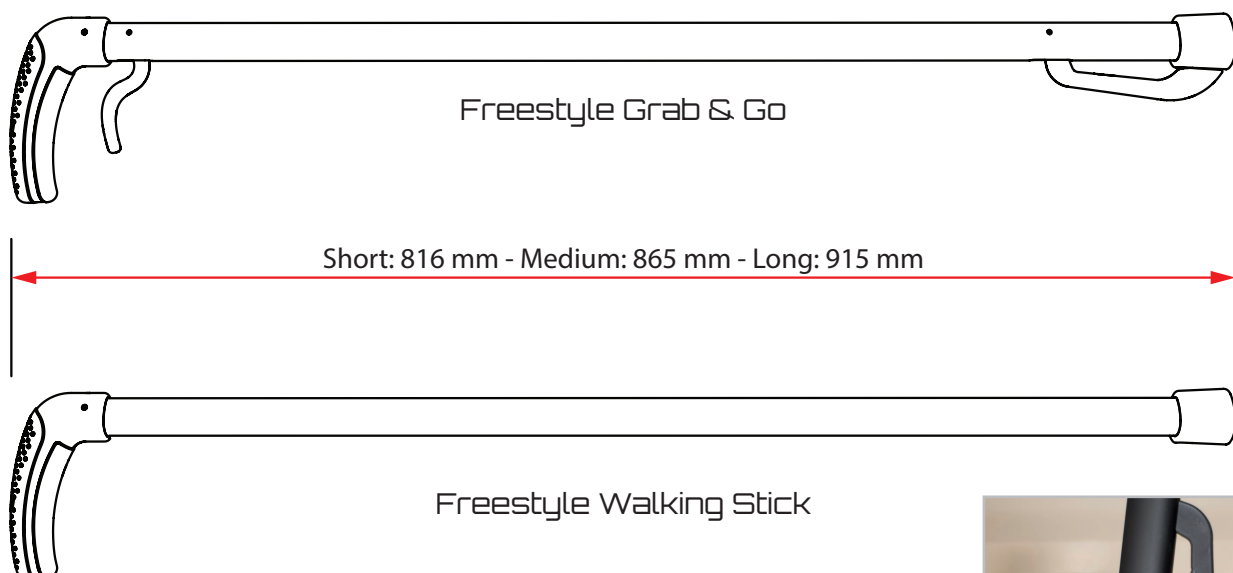

## Product Description

Two products - both work as premium quality lightweight walking sticks. One version is a standard walking stick while the other includes a unique hand-operated grabbing mechanism, trademarked and patented as 'grab & go'. The user pulls a lever near the ergonomic hand grip to open a spring-loaded jaw at the base of the stick. The jaw will grip small objects such as keys, glasses, gloves or pens so the user has no need to bend over.

We also offer spare ferrules for the walking sticks to extend their life cycle and reduce waste.

## Product Technical Details
