

DUAL CERTIFIED KEYGUARD XL KEY SAFE POLICE PREFERRED SPECIFICATION

LPS1175: Issue 7
Cert No: 1000i

HA00711 Dual Certified Keyguard XL Key Safe

The First & Only Dual Certified Key Safe

Introduction

The Dual Certified Keyguard XL is a high security key safe that meets Police Preferred Specification for both external and internal use.

The XL is the first and only key safe on the market to be successfully attack-tested to both LPS 1175 Level 7 and Sold Secure Bronze.

This Dual Certification means the safe is as secure as a domestic front door and has been subjected to a three-minute attack test against power tools.

The hi-vis, anti-fingerprint keypad is easy to view and use, with over 4,000 possible combinations from the 12 push buttons. The weatherproof rubber cover features a handy drilling template, with ready-made guide holes allowing marking up without holding the heavy safe.

- LPS 1175 Level 7 & Sold Secure Bronze
- Police Preferred Specification
- Attack tested against power tools
- No requirement for certified installers
