- Backrest and comfortable seat to allow use as a chair
- Simple folding mechanism for easy storage and transport
- Large diameter wheels with high-grip tyres and lockable brakes for safety
- Under-seat storage bag for convenience

## A Series Rollators

### Product Description

A choice of lightweight rollators to help users who have difficulty or lack confidence when walking. The regular options are suitable for medium height users and are available in three colours - red, blue and silver. The petite and tall options are suited to smaller and taller users and are available in grey. All options also have adjustable handle height for more tailored size changes to suit the needs of the user.

Brake levers on each handle control the brakes on the two rear wheels. They also include a locking mechanism for added safety. The large diameter high-grip wheels allow the rollator to roll along most surfaces while keeping control. A cushioned backrest and padded seat allow use of the rollator as a chair. The simple folding mechanism allows the user to easily collapse and store the rollator, useful when loading into a car boot or storage cupboard.

Each rollator includes a removable under-seat storage bag to hold smaller items, keeping hands free for safety.

### Product Technical Details

- A Series Petite (S15232) for users 5'0" to 5'6".
- A Series Tall (S23472) for users 5'6" to 6'3".
- Painted aluminium frame with plastic parts.
