

EN Repose® Instructions for Use

Introduction/intended purpose

Repose® is a range of static air, pressure redistribution and reduction support surfaces, all with high levels of immersion and repositioning. The ability of the patient to move freely penetrates a support surface. Environment is the ability of a support surface to conform to the irregular shape of the body. Re-positioning is the ability to move the patient and environment occurs, and the multi-way stretch, and elasticity of Repose allows for interface pressures to equalise across its surface.

This combination of unique materials and Smart Valve Technology have been specifically developed to deliver unique benefits to the patient. Clinical Trials have demonstrated Repose's ability to reduce peak and average interface pressures consistently (5.2%, 4.8%, 5.1%, 5.2%).

Repose Foot Protector, Foot Protector Plus, Wedge and Flex are designed to completely offload pressures from the heel, reducing the risk of heel ulcers. In the case of Repose Flex, introduce a 5°-10° angle in the patient's knee which is designed to reduce the risk of DVT.

Repose® is designed for use on static chairs with fixed armrests. Repose Contour is designed for use with riser recliner chairs.

Repose® cushion and Companion are provided with white polyurethane coated covers for additional durability, infection control and comfort. Covers are also available for Repose® Mattress Overlay.

Repose is offered in a variety of configurations to accommodate varied patient anatomy. Information can be found in the product catalogue or online at www.frontier-group.co.uk.

All Repose variants are supplied in an air pump unless otherwise stated. Please consult the product catalogue for full details or contact Frontier Therapeutics Ltd. for more information.

Indications

Indications for Repose are as follows:

Those at risk of developing pressure ulcers, including those at very high risk.

The following categories of pressure ulcers when used as part of a package of care:

Contraindications

Contraindications for Repose are as follows:

Sealed covers and overlays are not suitable for patients with unstable spinal fractures.

Irregular body shapes that cannot be fully supported by Repose.

Patients requiring posture management or those who have a pelvic obliquity are not indicated for Repose seating solutions.

Maximales Gewicht

Repose is subject to maximum user weight restrictions:

Product Description

Weight Limit

Mattress Overlay, Long Mattress Overlay, Double Mattress Overlay, Companion, Trolley Companion, Trolley Mattress Overlay

Cushion, Care-Sit, Contour, Pediatric Mattress, Baby/Nest Overlay

139kg

BabyNest Overlay

3kg (There is no lower weight limit)

Foot Protector, Foot Protector Plus, Foot Protector, Wedge, Flex, Sole Protector

No weight limit

Warnings and Precautions

Frontier Therapeutics Ltd. is required to operate or use Repose. Frontier Therapeutics Ltd. provides additional training material, which can be found online at <https://www.frontier-group.co.uk/elearning/>.

Before use, check Repose is free from any damage. If there are any visible signs of damage, do not use and seek a replacement.

Ensure Repose is fitted correctly and does not cause any obstructions.

Ensure Repose will fully support the size or shape of the patient's lower leg.

Represents a medical device and as such should be cleaned and handled as per local infection control policies.

The following is a recommendation made by Frontier Therapeutics Ltd. regarding any local policy and guidelines. If in doubt, please contact Frontier Therapeutics Ltd. to obtain further information.

Cleaning and Disinfection

Repose products should only be cleaned with the correct cleaning and disinfection products.

Repose is cleaned and disinfected and long-lasting.

These instructions have been written to help the user maximise the longevity of Repose but in no way, guarantee the life expectancy of the product. It is the user's responsibility to regularly inspect and check the product to ensure that Repose is performing optimally.
